

LEGACY AUTOMATIONS

AUTOMATING TODAY. DESIGNING YOUR AI LEGACY.

AI SOLUTIONS
WORKFLOW AUTOMATION
CLOUD MODERNIZATION
CUSTOM APPLICATIONS
SYSTEMS INTEGRATION
REAL BUSINESS IMPACT

COMPANY OVERVIEW

Legacy Automations LLC helps government agencies and enterprises modernize manual processes, connect disconnected systems, and build secure, scalable automation solutions. We design practical, AI-enabled solutions across Google Cloud, Google Workspace, Microsoft 365, and custom software environments that reduce repetitive work, improve data flow, strengthen governance, and support digital modernization initiatives.

CORE COMPETENCIES

- AI-enabled workflow and business process automation
- Custom software and internal business application development
- Google Workspace and Google Cloud automation
- Microsoft 365, SharePoint, Power Apps, and Power Automate solutions
- API development and systems integration
- Document and data workflow automation
- Cloud application deployment and modernization
- AI agents, retrieval-based assistants, and governed AI solutions
- Identity, access, and process governance automation
- Legacy process modernization and operational efficiency

DIFFERENTIATORS

- Cross-platform expertise across Google Cloud, Google Workspace, Microsoft 365, and Power Platform
- End-to-end delivery from discovery and architecture through development, testing, deployment, and support
- Focus on measurable efficiency gains and reduction of repetitive manual work
- Small-business agility with direct founder involvement and responsive delivery
- Experience with secure, governed solutions and customer-owned cloud environments
- Ability to work within existing enterprise technology stacks and compliance requirements

SELECTED EXPERIENCE

- VERA – Document Intelligence Platform**
Designed and developed a modern document intelligence and workflow platform with search, version control, review queues, invoice approvals, identity and RBAC, and customer-owned cloud deployment. A lower-cost, simpler alternative to legacy ECM platforms like OnBase.
- A.T.L.A.S. Automated Shared Drive Provisioning**
Built a Google Workspace automation solution that creates department Shared Drives, standardized folder structures, applies role-based permissions, and sends automated notifications.
- Legacy DevBridge**
Created an AI-assisted development platform for Google Apps Script projects with source control, engineering standards, AI assistance, governance, and human approval workflows.

- AI Budget Summary Automation (Texas Pipe & Supply)**
Automated financial data workflows combining multiple source files, GL and company mappings, summary reporting, forecasting, and automated output generation. Delivered significant time savings and improved accuracy.
- Legacy ServiceDesk**
Developed a cloud-based IT service management application for structured request intake, workflow processing, and operational service management.
- Enterprise Automation Experience**
Delivered workflow and business application solutions using SharePoint Online, Power Platform, Google Workspace, Apps Script, APIs, cloud deployments, reporting automation, approval workflows, and governance.

COMPANY INFORMATION

- Legal Business Name**
Legacy Automations LLC
- UEI**
DY6EGJCLB1A7
- CAGE Code**
26555
- SAM.gov Status**
Active Registration
- Expiration Date**
October 4, 2027
- Purpose of Registration**
All Awards

NAICS CODES

- 541512** Computer Systems Design Services
- 541511** Custom Computer Programming Services
- 541519** Other Computer Related Services
